

# A. Turing Way

Can you find out who Alan Turing was and why he is so significant?

We are going to be finding out why Alan Turing is so important and why he is remembered in Manchester. What did he do? Why is there a statue of him?

Can we identify different properties of materials?

In our science this half term, we will be looking and investigating materials that can be bent, squashed. Why can some materials move, but some can't?

Can we create a timeline of computer technology?

What did the first computer look like? How have the first computers evolved into iPads and tablets? What did people do before computers? We are going to be looking at pictures, as well as seeing some in action on our school trip!

Can you move up our chilli challenges?

In our maths this half term, we will be working on our numbers. We will be looking at place value of 2 digit numbers, challenging ourselves as we go!

Can you create a super piece of writing?

In our writing we will be writing some creative stories based on our book the Colour Monster. We will also be writing a biography about Alan Turing.
