15 November 2011

Dear Parents

The Eco Group topic this half term is energy. We will be taking part in Switch off Fortnight in school and at home we would like you to think about;

- switching off lights when you leave a room
- closing windows and doors to keep heat in
- turning off computers when you have finished
- turning off TVs instead of using standby

We would like to tell you about the Toasty Oldham campaign. All people who live in Oldham can get **free** cavity wall and loft insulation, subject to survey. Mrs Angus has already taken part and is getting free cavity wall insulation for her house. This will save energy which will save our planet and will save Mrs Angus some money! You could save some money too!

Thank you from the Eco Group
