

# Summer Term in Year 3

## English

In reading we will be looking at Ragon.

Our writing for the first half of the term will be focused on 'Charlie and the Chocolate Factory.' The children will create their own newspaper reports on who found a golden ticket!

**HOW YOU CAN HELP** - Please read at least 3 times a week with your child.

## Maths

In Maths, we will look at fractions, time, money, angles and properties of shape and statistics. We will continue to develop building on our timetables knowledge.

**HOW YOU CAN HELP** - Continue practising 2, 3, 4, 5 and 10 timetables with your child and complete any allocated tasks on PowerMaths.

## Topic - Science

Our topic focus in summer is science. We will be learning all about Bernard Lovell and the impact he has had. We will recap our knowledge from Year 2 all about the solar system and develop this further by looking at the moon.

## Science

In science, we will be looking at identifying and describing the functions of different parts of flowering plants: roots, stem/trunk, leaves, and flowers. We will also look at what a force is and how magnets work.

## Art

In Art we will be looking at settings and landscapes. Our art work will be inspired by artist Lowry. Linking to our topic we will also look at creating pieces based around the solar system.

## PE

PE will be with Harry on a Wednesday (outdoor). On a Friday the children will be with Mr Wright (indoor).
