

My Learning Challenges

Your child will look at pictures from the story of Knuffle Bunny and sequence them into the correct order. They will then re-tell the story to a friend using the pictures as a prompt.

Your child will conduct a science experiment to find out what the best material would be to make a crash mat for Humpty Dumpty.

Your child will use a variety of different materials to make their own peg doll.

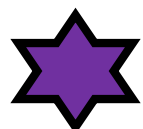

Your child will have to use their blending skills to read words and match the word up with the correct picture.

Your child will complete a doubling numbers activity.

Your child will create their own simple story book.

Your child will have to fit the pieces of the jigsaw together correctly so that it matches the same pattern as the example.
